This tutorial is part of our series on using content marketing to create more exposure online for your business and drive more traffic to your site.

Subscribe to our web content creation course and learn how to never run out of great content for your website, blog, or newsletter.

This section of our tutorial series on content marketing covers different methods you can use to create content for your site using **third-party content**.

In this tutorial, we look at using *content rewriting tools*.

We also recommend the tutorials below for additional information:

- Rewriting Content
- Using Content Writing Tools
- Using Content Rewriting Tools (this tutorial)
- Using Ready-Made Content

Content Rewriting Tools

So far, we have looked at rewriting existing content gathered from different information sources around the web as a way of creating articles and posts for your website or blog without having to start things completely from scratch.

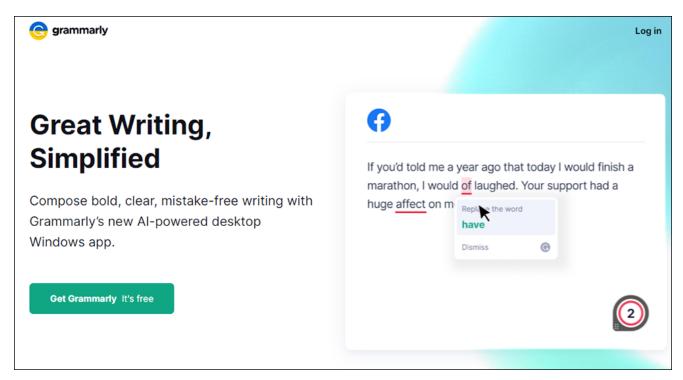

Now, let's look at some content rewriting tools that will help make this process easier.

There are software programs and tools available that can save you time researching and gathering content from various online sources, and then allow you to intelligently rewrite and combine the content into a unique and readable article that can provide value to readers and still be unique enough to be indexed by search engines.

Content Rewriting Tools

Here are some of the more popular and well-supported content-rewriting software tools available:

Grammarly

Grammarly can help your content rewriting.

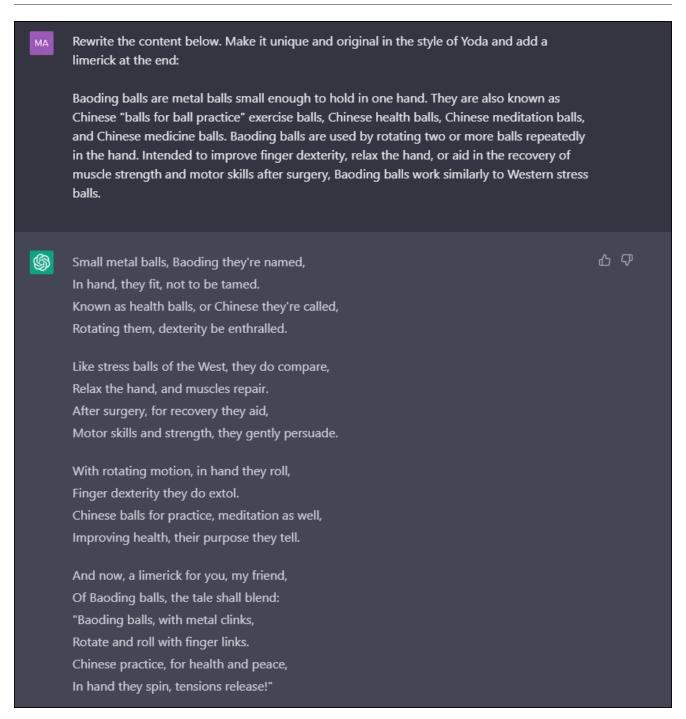

<u>Grammarly</u> utilizes advanced artificial intelligence (AI) and natural language processing (NLP) technologies to help to improve your content rewriting in several ways:

- **Grammar and spelling corrections**: The tool's Al-powered algorithms can detect and correct grammar and spelling mistakes in the content being rewritten. This ensures that your rewritten content is error-free, professional, and polished.
- Enhanced sentence structure: Grammarly can provide suggestions to improve the sentence structure of the content being rewritten. It can help you rephrase awkward or unclear sentences, making the rewritten content more engaging and reader-friendly.
- **Vocabulary enhancements**: Use Grammarly to identify repetitive words or phrases in the content being rewritten and suggest synonyms or alternative words to diversify the vocabulary, making your rewritten content more engaging and impactful.
- **Style improvements**: Grammarly can provide suggestions to improve the overall writing style of the content being rewritten. It can help adjust tone, formality, and clarity to align with your intended audience or the purpose of the rewritten content.
- **Plagiarism detection**: Grammarly can detect potential instances of plagiarism in the content being rewritten by comparing it to a vast database of sources. This ensures that your rewritten content is original and avoids unintentional plagiarism.

Overall, Grammarly can be a valuable tool for content rewriting, helping you produce highquality, error-free, and engaging content while correcting grammar and spelling errors, enhancing sentence structure, and providing suggestions for more concise and clear communication.

ChatGPT

ChatGPT is a powerful content rewriting tool.

ChatGPT is a powerful content rewriting tool. You can use it to rewrite existing content like articles, product descriptions, headlines, etc.

Here's what ChatGPT itself had to say about using the tool for content rewriting:

Through its language generation capabilities, ChatGPT can help with content rewriting by providing unique and original content in a different style, tone, or voice. For example, in the style of Yoda, as demonstrated in the previous response, ChatGPT can creatively rephrase and restructure the original content to make it more engaging and interesting.

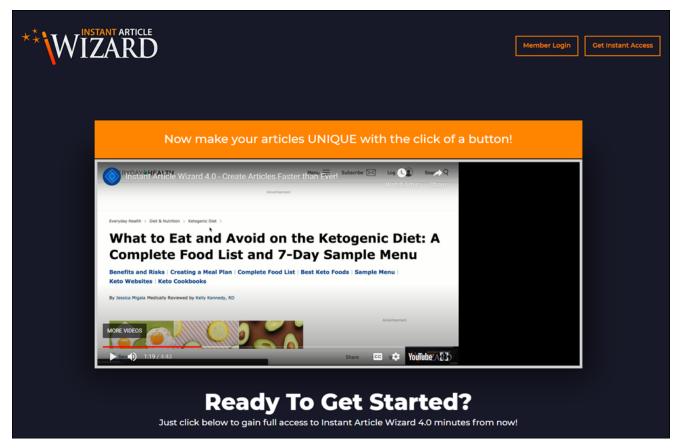

ChatGPT can also assist in avoiding plagiarism by generating fresh content based on the input provided, without copying or paraphrasing existing content. It can rephrase sentences, change word choices, and rearrange sentence structures to create new and unique content that retains the meaning and intent of the original text.

Additionally, ChatGPT has a vast knowledge base that it uses to provide accurate and relevant information in its content rewriting. It can leverage its understanding of various topics and concepts to generate unique and original content while maintaining coherence and coherence.

Overall, ChatGPT serves as a valuable tool for content rewriting by providing fresh perspectives, creative approaches, and original content in different styles or voices, while retaining the essence of the original content.

Instant Article Wizard

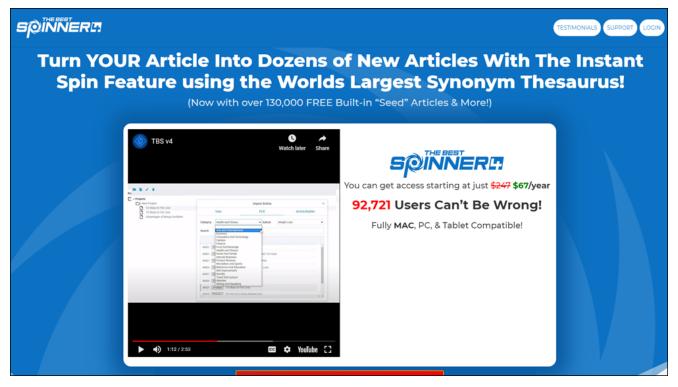

Instant Article Wizard.

Instant Article Wizard gathers content from thousands of pages on the web like Google Web Results, Microsoft Word files, Adobe PDF files, content-rich articles, product reviews, etc. very quickly, then creates subtopics so you can break your content into relevant sections, generate paragraphs of content based on the topics you choose and rewrite the content using an integrated thesaurus.

Content Spinning (Spintax) Tools

The Best Spinner

The Best Spinner.

<u>The Best Spinner</u> lets you create unique variations of your content (also called *content spinning* or *spintax*), then output these into different articles. For example, if you enter the following snippet of text into the content spinning software:

{You should eat {fruits, veggies, and grains|veggies, fruits, and grains|fruits, grains, and veggies|grains, fruits, and veggies|veggies, grains, and fruits|grains, veggies, and fruits} if you want to be healthy.|If you want to be healthy, you should eat {fruits, veggies, and grains|veggies, fruits, and grains|fruits, grains, and veggies|grains, fruits, and veggies|veggies, grains, and fruits|grains, veggies, and fruits}.}

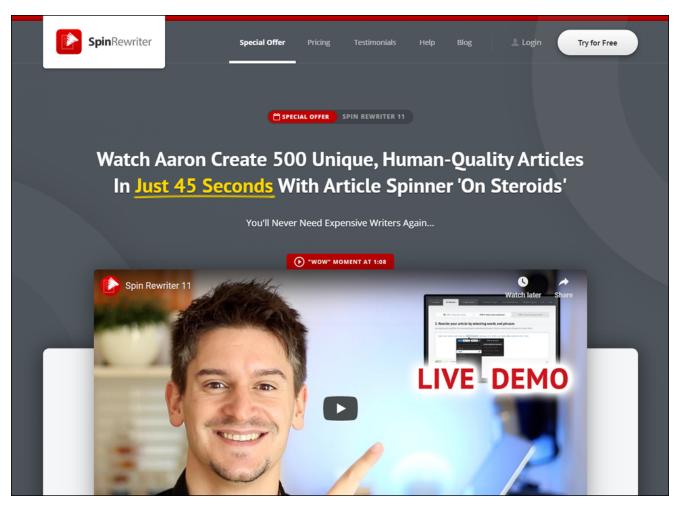

You will get the following variations:

- If you want to be healthy, you should eat fruits, grains, and veggies.
- If you want to be healthy, you should eat fruits, veggies, and grains.
- If you want to be healthy, you should eat grains, fruits, and veggies.
- If you want to be healthy, you should eat grains, veggies, and fruits.
- If you want to be healthy, you should eat veggies, fruits, and grains.
- If you want to be healthy, you should eat veggies, grains, and fruits.
- You should eat fruits, grains, and veggies if you want to be healthy.
- You should eat fruits, veggies, and grains if you want to be healthy.
- You should eat grains, fruits, and veggies if you want to be healthy.
- You should eat grains, veggies, and fruits if you want to be healthy.
- You should eat veggies, fruits, and grains if you want to be healthy.
- You should eat veggies, grains, and fruits if you want to be healthy.

If you look closely at each of the above sentences, you will see that they are not the same. Depending on the complexity of your spun content, you can create hundreds of completely unique article versions of an article or rewrite any article quickly with The Best Spinner software.

To learn more about this tool, watch video demos, etc., go here: The Best Spinner

Spin Rewriter

Spin Rewriter.

Spin Rewriter uses a process called 'Emulated Natural Language' spinning (ENL) to create content. ENL spinning is able to tell the difference between words that have different meanings when used in a different context (e.g. 'John read a *book*', and 'John tried to *book* a trip to Europe').

This allows you to include options in your spintax structure where the software will only choose options that fit the context of your sentences.

So, if you spin text with the options of using words like 'book' and 'novel,' you will end up with 'John read a *novel*,' but not 'John tried to *novel* a trip to Europe.'

To learn more about this tool, watch video demos, and sign up for a FREE trial, go here: **Spin Rewriter**

Why Use Content Rewriting Tools?

Let's say that your website publishes articles or posts with sections that contain the same content (e.g. affiliate, financial, medical, or product disclaimers, e-commerce store descriptions, etc.)

With content spinning, you can create a number of variations for each similar content section to help prevent publishing duplicated content on your posts and make each of your posts a little more unique.

Summary

There are tools that can help you rewrite content faster. Use these as a means to an end, not as the end itself.

Action Step

If you don't want to create content from scratch, look into tools and methods you can use to rewrite existing content where the end product will not just be "readable" content for humans, but content that actually provides unique benefits and value to visitors.

Now that we've taken a look at using content rewriting software to create new content, let's take a look at <u>using ready-made content</u>

ns|veggies, fruits, and grain veggies|grains, fruits, and veggies|vegg ains, and fruits|grains, veggies, and frui you want to be healthy.|If you want to ealthy, you should eat {fruits, veggies, i ains|veggies, fruits, and grains|fruits, g d veggies grains, fruits, and veggies ve

Use content rewriting tools to rewrite and combine your content into unique and readable articles.
